
Clinton/Borden Road Aurora Street

Client/Owner: Erie County DEP

Project Location: City of Lackawanna, NY

Since 1984, the Erie County Department of Environment and Planning has engaged GPI to provide varied engineering services on numerous projects covering a wide range of engineering disciplines. A major component of the consulting services involved the design, renovation, additions and restoration of existing or new facilities. Also, the design of a new maintenance garage for the district was given as a new assignment in the City of Lackawanna. GPI provided the design, plans and specifications, contract administration and inspection along with R.O.W. survey and construction stakeout. The following facilities were completed by GPI for the ECDEP.

- . Erie County Sewer District No. 1 - Clinton/Borden Rd. Pumping Station
- . Erie County Sewer District No. 2 - Pontiac Road Pumping Station
- . Erie County Sewer District No. 4 - Aurora Street Pumping Station
- . Erie County Sewer District No. 6 - Maintenance Garage
