
Placement of Mats along Delaney Creek

GPI

Articulating Mats

Client/Owner: Dallas 1 Construction & Development, Inc. **Project Location:** Tampa, Florida

Placement of 110,500 square feet of articulating block mats and filter fabric along the banks of Delaney Creek in east Tampa. Mats were placed at curves or junctions with tributaries so project had 13 separate sites receiving mats. Difficulties included poor access to the majority of the work and poor soil conditions for heavy equipment. UES was a subcontractor to Dallas One the projects owner is Hillsborough County.
