
US Fish & Wildlife Service Mosquito Lagoon

GPI

Construction - Buoy & Sign Installation

Client/Owner: US Fish & Wildlife Service

Project Location: Titusville, FL

Installation of buoys and channel markers at Merritt Island National Wildlife Refuge, Titusville, FL. Work included installing buoys, signs and markers for the purpose of establishing zones. UESI set anchors for buoys and jetted in wood poles for signs. Project was completed in water depths from a few inches to a few feet in Mosquito Lagoon where internal combustion engines are prohibited.
