

Blackwell Reservoir City of Port St. Lucie

Erosion Control - Articulated Block Mats

Client/Owner: City of Port Saint Lucie.

Project Location: Blackwell Reservoir Martin County Florida

UESI was selected as the prime contractor for this fast track project for repairs to the Blackwell Reservoir. UESI was selected based on our past performance which gave the client confidence that the project could be completed within the short time frame required. Work elements include clearing and grubbing, embankment repair, placement of articulated block mats, sodding and restoration of berm. UESI was on site in March of 2007 and has an estimated completion date in May of 2007.
