

## Holy Sepulchre Cemetery Site Entrance

**Client/Owner:** Catholic Cemeteries Diocese of Rockville Centre  
**Project Location:** Coram, NY

GPI has been providing land planning and development services at this cemetery for over 17 years. For this project, GPI provided site design, civil engineering, and landscape architectural services for this new entry area to the cemetery. The project included the design of the main elliptical entry drive, new mausoleum, chapel, and administration building. Specific services included survey, water service and RPZ design, sanitary system design, storm drainage design, and planting design. The documents were prepared and submitted for Town and County review. GPI is also providing construction inspection services.
